

Archery Game

safely best archery-team-action!

How to play:

The field should be approx. 30x15m and have a safety zone in the middle of approx 5m where the bows and arrows lie at the beginning. On command both teams, each consisting of 4 -10 players, start at the base line to pick up the equipment. You are to shoot only from your half of the field and not at rivals in the safety zone. Shot arrows can be picked up anywhere. A player drops out of the game if he gets struck or a rival catches his flying arrow. He re-enters the game when one of his team-mates shoots a spot out of the opponent's team target.

The team having put all rivals from the field or shot all spots out of the opposing target wins the game.

Enjoy yourself!

Playing with the State of Art

The following equipment is needed:

- 1 bow, 3-4 safety arrows and 1 safety mask for each player
- 1 target for each team
